FORECAST AND ANALYSIS OF CALIFORNIA NEW LIGHT VEHICLE MARKET

California New Vehicle Market Increased 9.9% in 2011; 8.5% Improvement Predicted for '12

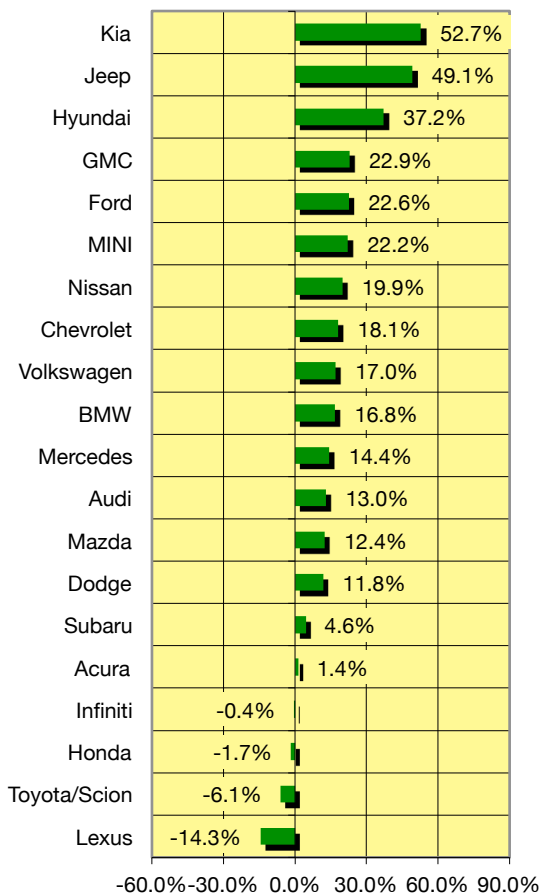

The recovery in the California new vehicle market continued last year. New light vehicle registrations in the state increased 9.9 percent from 2010 to 2011, which followed the 13.1% improvement from 2009 to 2010. And the market is likely to head higher this year as well, with an 8.5 percent increase predicted. Although the market is moving higher, it is still well below sales levels attained during the market's recent highpoint. Registrations this year are predicted to approach 1.4 million units, well below the average of 2 million between 2000 and 2006. Other key trends in the state market:

- Korean, Detroit Three, and European brand registrations each increased by more than 16 percent last year.
- Passenger car share declined 1.8 share points in 2011. SUVs were up 1.7 points.
- The 9.9 percent improvement in the state market last year was in line with the 10.3% increase in the Nation.

BRAND SCOREBOARD

Detailed Results for All Brands in California Market

The table shows new light vehicle registrations in California, including retail and fleet transactions. **Please keep in mind that monthly registration figures can occasionally be subject to fluctuations, resulting in over or under estimation of actual results. This usually occurs due to processing delays by governmental agencies. For this reason, the year-to-date figures will typically be more reflective of market results.** The top 10 ranked brands in each percent change category are shaded green.
